

High School Vision Program Students Tour Ohmsett

Ohmsett, Leonardo, New Jersey – On June 1, 2017 a group of students enrolled in the Vision Program at the Middletown High School in New Jersey visited Ohmsett to gain an understanding of the various opportunities in the trades that are available to students who are not pursuing college studies.

###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America. It is designed to evaluate the performance of full-scale oil spill response equipment and marine renewable energy systems (wave energy conversion devices) in realistic but safe environmental conditions. The facility, managed by BSEE and operated by MAR (MD) LLC, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
