

## **Ohmsett Featured on Discovery Channel Canada's Daily Planet Series**

LEONARDO, NJ – On September 9, 2013 Ohmsett was featured on Discovery Channel Canada's program The Daily Planet. Filming took place as Elastec/American Marine tested their TDS118G skimmer to the ASTM F2709 Standard Test Method for Determining Nameplate Recovery Rate of Stationary Oil Skimmer Systems. The program can be viewed at <http://watch.discoverychannel.ca/daily-planet/september-2013/daily-planet---september-9th-2013/#clip1000146>. The Ohmsett segment starts at about the 4.28 mark.

###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by BSEE and operated by MAR, Incorporated, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
